Attempts to balance car wheels on the car with portable, roller-type equipment, usually at a "cut-rate" price, is simply throwing money away. If your wheels are balanced in our service shop, accumulated in our service shop accumulated in our service shop accumulated with your wind the inside of the wheel and the balance obtained with weights useless. With the wheel and hub off the car, the with weights useless. With the wheel and hub off the car, the brake linings, grease scals and bearings will all be checked and adjusted if necessary. These things can't be done "on the car".

A quality job won't be the cheapest, but it will cost less in the long run.

n Incongruous Situation . . .

In the past two weeks, the Avalanche has carried two ews stories concerning public transportation in and it of Grayling. They were as different as black and hite and it seems to us that something must be very

Two weeks ago, we published a news story that the ew York Central railroad system was very seriously msidering petitioning the Michigan Public Service ommission to discontinue passenger service on their ne between Bay City and Mackinaw City. Top offiers of the division said that the service was being perated at a terrific loss to the company.

Then this past week, we published a news story from he Eastern Division of the Greyhound Bus Lines in which they stated that they were "beefing up" their us service to Grayling and other northern Michiganties. They were adding more runs, a special resort xpress run on Friday, Saturday and Sunday, were get-

Both are in the same business. Why does one see othing but bleak times ahead for public transportation while the other apparently looks ahead with real onfidence? It sure seems funny to us. There probable are incongruous situation.

We have felt for a long time that the railroads of merica were certainly not going all out trying to get heir share of the passenger service. Nowhere has it cen more apparent than on the Mackinaw Division.

Vefeet there is a need for this service and although he NYC-figures show at is used very little, we feel hait is NYC-s fault for not doing a little better selling lob. Special runs of the Beeliner for outstanding lob.

Red Cross Gives Summera Safety Tips

WASHINGTON, D. C., May 27—"Life preservers" for the millions of Americans who will take to the water and the woods this summer were recommended today by the American Red Cross as the outdoor vacation scason began-officially Tuesday with the Memorial Day holiday.

The most popular summer sports swimming and hosting account.

sports, swimming and boating, ac count for the majority of the 6,500 annual drownings, A. W. Cantwell, national director of Red Cross Safety Services, said.

To prevent them and other waterside accidents, he advocated these preparations:

these precautions:

these precautions:

1. Never swim alone. At beaches, stay near a lifeguard.

2. Stay out of the water when overheated, for an hour after eating, and during electrical storms.

3. Stay away from the area immediately in front of the diving hoard.

board.
4. Don't depend on a tube of inflated toy to hold you up.
5. Don't dive in shallow water

or in unknown waters.
6. Watch your step. Walk, don't run, around pool area.
7. Stay out of deep water if you can't swim.

8. Beware of sunburn, even on a cloudy day.
9. Dry off after swimming. Cover up if it's chilly.
10. In ocean and river swimming watch for riptides and currents. Lifeguards will tell you how to recognize these conditions and recognize these conditions and how to save yourself if you are caught.

11. In long-distance swimming always swim parallel to the shore and with a companion or a boat.

water in your pool by a buoyed line.

18. Keep handy such rescue equipment as ring buoys and reaching poles, as well as a first aid kit.

Mr. Cantwell advised motor boat owners to:

1. Keep the passengers in your boat down to a safe number. Don't overload.

2. Don't overpower your boat. Your dealer can tell you what size motor is safe for your boat.

3. Equip your boat with safety items. A life jacket for each parsenger and a stern light are musts. Recommended also are anchor, oars, boat hook, extra line, fire extinguisher, first aid kit, and tool kit.
